

## Himalayan Natural Salt Lamp USER MANUAL

READ BEFORE USE. SAVE THESE INSTRUCTIONS

100% Natural Salt from the Himalayas

1

### ABOUT THIS PRODUCT

- This product is made from 100% natural and hand carved salt crystals imported from the Himalayan Mountains.
- Due to the natural excavation process, lamp shape, color, size and weight may vary.
- Each item includes a 15-watt bulb pre-installed within the lamp base.
- To prevent damage during transportation, the salt lamp may arrive protected with shrink-wrap. Please remove before use.
- Be cautious handling the lamp if left on for an extended period of time. The bulb will heat the salt and the surface of the lamp will become very warm.
- Cord includes a twisting dimmer knob that functions as a brightness control and ON/OFF switch.
- When turned on, this lamp will create a relaxing orange glow.

### SAFETY INSTRUCTIONS

READ BEFORE USE. ALL MINERAL LAMP PRODUCTS SHOULD BE USED AS DESCRIBED IN USER MANUAL.

1. **DANGER:** To reduce the risk of electric shock, remove/unplug the power cord from the outlet before cleaning, adding/replacing light bulbs or moving to a new location.
2. **WARNING: DO NOT USE NEAR WATER:** To reduce the risk of fire or shock, do not keep the lamp near water of any sort or expose to rain or moisture. DO NOT attempt to dry lamp using a microwave oven or hair dryer.
3. **FOR INDOOR USE ONLY**
4. **DO NOT EAT:** This salt lamp is not edible, keep away from children and pets
5. **KEEP OUT OF REACH OF CHILDREN:** DO NOT allow children or pets to play or chew on cables or cords.
6. Lamp and cords should be arranged neatly and away from common walking paths.
7. DO NOT allow cord or dimmer switch to be stepped on.
8. KEEP away from direct sunlight
9. KEEP cord clear from hot surfaces.
10. DO NOT add or insert any foreign items into opening of lamp.
11. DO NOT jerk, pinch or sharply bend electrical cord, especially while connected to power outlet.
12. Unplug your lamp during lightning storms or extended periods of non-use.
13. If power cord sustains any damage, stop use immediately.
14. If water damage has occurred, stop use immediately.
15. Contact Mineralamp regarding replacement parts.

Therapeutic & Meditative Rooms

### CARING INSTRUCTIONS

1. Salt lamps are known to be hygroscopic, meaning they absorb moisture from the air. It is recommended that these lamps not be used in humid or moist quarters, for example shower rooms, bathrooms or humid outdoor patios.
2. If you live in a humid climate, please be aware that your lamp may absorb moisture and drip. Make sure the salt body is dry before turning on. If your lamp is slightly damp, unplug and wipe with a towel before use.
3. If you notice that your lamp is "sweating" while turned on, wipe it down with a paper towel and place a dry rag or towel evenly underneath the base. DO NOT use a paper towel or any type of plate to catch the water. Puddles of water forming under or around the lamp base can increase the risk of fire and/or shock.
4. To clean and remove dust, wipe lamp gently with a slightly dampened towel or sponge. Dry with towel and allow the salt lamp time to dry before turning back on.
5. If you plan on leaving your lamp off for weeks at a time, it is recommended that you store the salt lamp within a sealed plastic bag or container to prevent the build up of moisture within the salt.

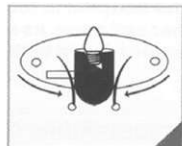

### OPERATING INSTRUCTIONS

Plugging in your lamp:

Your Mineralamp includes a polarized plug. This means one blade will be larger than the other. When plugging in your lamp, make sure that the larger blade fits correctly into the outlet. If it does not fit, try reversing the plug.

3

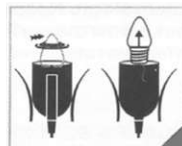

### Bulb Replacement Instructions

**Step 1:** Pull bulb assembly out gently as indicated with arrow.

**Step 2:** Press the two hands of spring and pull the holder out.

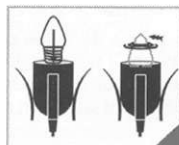

**Step 3:** Twist the bulb counter clockwise and pull the bulb in the direction of the arrow.

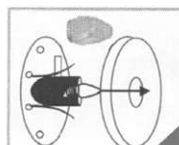

**Step 4:** Do not insert any instrument in the holder.

4

**Step 5:** Take the new bulb, insert in the holder and twist it in clock-wise until it stops twisting further.

**Step 6:** Press both hands of the spring to insert the bulb assembly inside the lamp.

**Step 7:** Put the lamp in upright position.
